# Introducing the Assessments Changed report in V5

Reports in Connecting Steps · https://support.bsquared.co.uk/docs/introducing-the-assessments-changed-report-in-v5/

The *Assessments Changed report* shows the granular changes in achievement/engagement that have been demonstrated by a pupil over a time period. It is easy to see the very small steps of progress or regression that have been made.

For pupils with complex needs, you can show the different skills the pupil is more engaged in or requires less support to achieve. It can also highlight any skills where a pupil has regressed, even a small regression, such as they need additional support compared to previously.

Watch this 3-minute video guide for a quick overview:
