Introducing the new Non-Linear Progress report in V5

Reports in Connecting Steps · https://support.bsquared.co.uk/docs/introducing-the-new-non-linear-progress-report-in-v5/

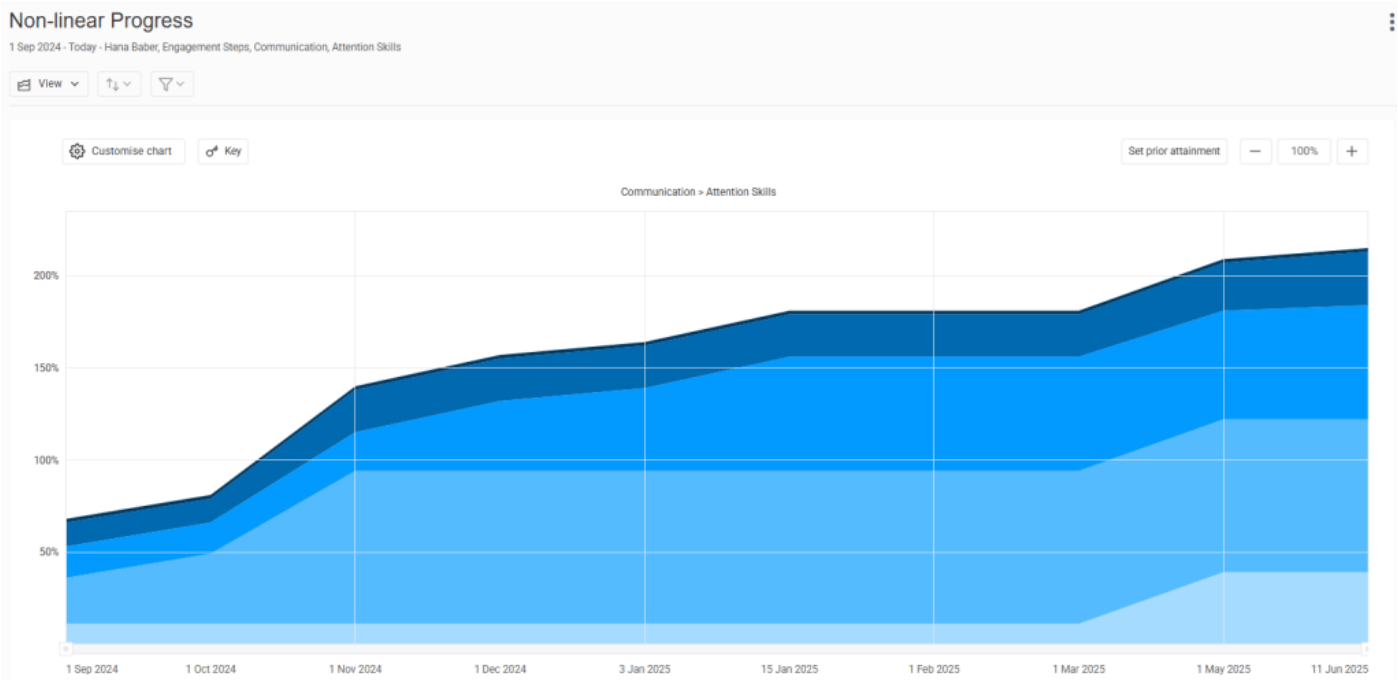
The *Non-Linear Progress report* shows the progress a pupil has made across multiple levels, from their current level at the start of the report.

Pupils with autism, complex needs or a specific area of difficulty will work across multiple levels. This report helps show all of their progress, not just the progress on their current level. A pupil may plateau on a level when they reach skills they struggle with but could be making progress on the level above. It can help pupils and parents see that progress is being made, even though it isn't on the current level.

This 4-minute video guide gives a quick overview:

Embedded media: https://player.vimeo.com/video/598968468?dnt=1&app_id=122963

On this report, you can view non-linear progress as an area graph to see trends:



Or choose column view, to show full details of the percentage completed across different levels on key dates by an individual student:

Non-linear Progress
