Viewing and comparing the level status of a student in a pie chart

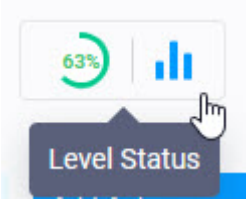

Assessing in Connecting Steps · https://support.bsquared.co.uk/docs/viewing-and-comparing-the-level-status-of-a-student-in-a-pie-chart/

The level of experience pie chart shows all the information about a student's progress on a particular level.

Compare two pie charts to show the progress a student has shown over time.

To view the level status of a student

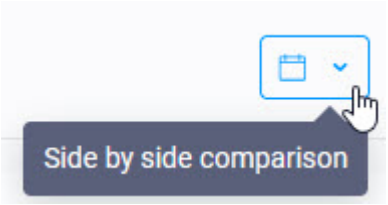

1. Navigate to the **Individual Assessment** screen in Connecting Steps.
2. Select the required group type, group, student, framework etc in the **Selection** panel.
3. Click the **Level Status** icon.

The level of experience for the selected student displays in a pie chart.

To compare the current level pie chart to an earlier one

1. Follow steps 1-3 above in **To view the level status of a student**.
2. Click the **Side by side comparison** icon.

The comparison date window opens.

3. Select the required date.

Connecting Steps displays the pie charts side by side.
